02:59:15 the alarm is activated as two thieves smash their way through the roller-shutter door.

02:59:47 the thieves are inside. They ignore the intruder alarm. Balaclavas [hoods] obscure their features from the CCTV cameras.

02:59:48 as one thief jumps over the counter he triggers the **Smoke Screen**. Smoke is released instantly and the thief can be seen crouching down as the smoke obscures the cigarette display and the cash counter.

02:59:50 he recovers his wits and hurdles back over the counter chasing after his fleeing accomplice.

02:59:52 the break-in is over. The thieves have been forced out and nothing has been stolen. In just two seconds **Smoke Screen** achieved it's goal. It stopped the burglary!

This simple sequence proves conclusively that **Smoke Screen** will succeed.

Thieves know that they can smash their way into a premises, steal property and leave before the Police have time to react. **Smoke Screen** stops them in their tracks in seconds!

Smoke Screen can be used in our ATM enclosures, homes, shops, offices, factories, service stations - in fact anywhere where property is at risk.

Thieves Can't Steal What They Can't See!
